Achievements

Portfolio website- www.raphael-durand.fr

During the summer of 2023, I created my own complete portfolio website.

Menu management application (in progress)

During the first semester of 2023, as part of my training (in a team of 6), I'll be developing a menu and allergy management application. We'll be doing the development phase a second time in the second half of the year, using the React library.
